CAFE WEBSITE

I will be doing a basic cafe website with moderately advanced layouts.

The website will allow for online ordering, menu's, and a way for customers to give their feedback.

Some similar websites are:

https://www.myanthemcoffee.com/

https://www.cultivarcoffee.com/

https://www.presscafeftworth.com/#home

https://lamadeleine.com/

https://el-gran-cafe.square.site/
